## **AKLUJ OBSTETRIC AND GYNAECOLOGICAL SOCIETY, AKLUJ, DIST. SOLAPUR**

Dear Doctors,

Curiosity and Creative Imagination got married in the minds of humans. They gave birth to Physis (=love for knowledge). Physis sat eating apples under the tree. Sometimes it was Kalpavruksha sometimes it was Bodhi. Sometime it was some tree in the Garden of Eden.

But the Apple actually helped Physis in making the Pie of Knowledge. From the Job of saying A for Apple to The Job's Apple of gadgets and technology and from Newton to Adam...this apple has always influenced the history. It was the apple which laid Newton to the discovery of gravity and it was apple which drove Adam and Eve to make that first innocent/virtuous sin.

Newtons apple had a physical liking for ground, earth (Mother Gaia) and gravity. While Adam-&-Eves apple had gravity for physical liking. Both had a fall. •

Lets gravitate at Akluj to know the meta-analytical, evidence based medical & scientific secrets of this physical love making. By kindling & keeping the passions and fire of Physis and the skeptical faculty of Newtonian Reason alive.

The knowledge of the carnal knowledge. By litting the lamp of scientific acumen lets throw some light on this dark matter. This dark energy. Lets talk on sex ! by throwing and clearing the cobwebs of inhibitions and reservations.

The topic of the tips of privacy and private parts which are their on the tips of frontal lobe and the tongue...but no one dares to speak. Lets get motivated not by fear and anxiety but by this love for knowledge.

**ORGANIZING COMMITTEE – AMOGS ZONAL CONFERENCE , AKLUJ**

Organizing Chairperson	:	Dr. Madan Kamble
Organizing Co - chairperson	:	Dr. Sachin Phade
Organizing secretary	:	Dr. Priya Kadam
